Will of Mr. Frick Still

LARGE NUMBER OF NEW INFORMATIONS

Sworn Out Against the Participants it the Late Riot at Homestead-The Pittsburgh Police Light Upon a Nest of Anarchists

Piттавинан, Pa., July 28.—When

Henry C. Frick was shot last Saturday h said, while the doctors were engaged in probing the wounds, that the trag edy would have no effect whatever upon the policy of the company toward the Homestead troubles. That he meant what he said was evidenced ves terday, when Secretary Lovejoy, at 12:30 o'clock, appeared before Alderman McMastors and swore out thirty-six in-formations against as many of the ex-employes, and upon which warrants were immediately issued. It was sig-nificant, however, that those informations made a change in the nature of the offense, the men being charged with aggrevated riot, in-stead of murder It is taken as charged with aggrevated riot, in-stead of murder It is taken as indicating that the company now doubts its ability to sustain the main charge against any of the men, and has concluded to content itself by preterring a charge upon which there may be a chance of obtaining some convic

It was significant also that amon the names of those included in the in-formations were those of nearly every ex-cappioye who has testified before the coroner's jury that the first shots fired on the morning of July 6 came from the Pinkertons. The fact that the company should have selected these nen as victims, especially in view of the fact that, as witnesses before the coroner's jury, they would most likely be expected to testify in court, has cre-ated a great deal of comment, and that

not very favorable to the company.

The policy of suppression of names in the matter of informations was again sarried out, and the majority of the mer against whom warrants were issued will have no knowledge of the fact un-til they are placed under arrest. It is understood new informations will now be made from day to day for some tim to come, but the advisory committee is prepared with ample bail, and not one of the men will be allowed to stay in jall an hour longer than the machinery of the law makes necessary. Private information is also to the

effect that the informations sworn ou every member of the advisory commit-tee, as well as some of these who al-ready have been arrested on the charge f murder and released on bail. Jam of murder and released on oal. James Close, who was arrested Tuesday, will have to answer the new charge, as will also Sylvester Critchlow, who volun-tarily surrendered yesterday, and whose warrant was issued at the same time as those of O'Donnell, McLuckie and others, on the charge of murder This morning Judge Mages will hear the motion for bail for both Close and

CHICAGO ENTHUSED

Over the Action of the House in Agree ing to the Senate's World's Fair

Appropriation.
CHICAGO, July 28.—Since the Chicago committee that went to Washington "to get the World's fair" sent back word that the western metropolis had come out triumphant, no measure before congress has been watched so closely as the bill appropriating \$5,000,000 for the exposition.

The announcement that the bill had

ased created almost as much enthusiasm as the vote that sout the fair to Chicago. The officials were overjoyed. The chief source of congratulation was that the fair would be completed on the magnificent scale inaugurated.
That the officials would not be compeled to alter their plans, reduce appropriations for buildings, consolidate, abolish any of the features they have or abolish any of the features they have kept constantly in view, was consid-ered especially fortunate. There was little talk regarding the Sunday-clos-ing idea, the general sentiment being that the appropriation entitled con-gress to a voice in the management of the fair.

I have noticed in my own business life, extending over a period of nearly seventy years, that every reduction of the tariff, or the taniff for revenue only plan, has brought wretchedness and rum. It is the natural effect from such a cause Nothing is more certain than that the advocacy of free trade comes from foreigners who want to break up our industries. They have done it several times already, and they want to do it again. The laborers of the Old World get barely enough to keep body and soul together, and that is the condition in which the advocates of free trade are trying to place our laborers.

Peter Ocoper is dead now, but the Democratic party is alive and is still trying to silliot this country with free trade. That party holds, as it did from 1833 to 1860, that the laboringmen of this country water and at Union Depot 1 my 16-td.

CHAPLAIN RUTLEDGE COMING.

He Will Give the Address at the Old Settlers' Rounton August 18.

The committee on speakers for the annual reunion of the Macon County Old Settlers' Association at Riversid Park (on Thursday, August 18, are u great glee over their success in securing Rev. W. J. Rutledge, of Jacksonville, as the chief orator at the reunion. This letter has been received by Hon. J. R.

JACKSONVILLE, It.L., July 27, 1892. JACKHONVILLM, 114..., July 27, 1872.

IDEAR HROTHER GORIN—Your favor of yeaterday received and contents noted. No preventing Providence, I will comply with your
request, and feel the more inclined to do so on
account of your guarantee that "it will prolong
to the property of the property of the party of the part

inv life at least ten years." Huppose it is as erably het as it is at present and the effort Abbrevistes my life ten years, will the old ye of Macon county pay the damage? I have never dealt in options and therefore do not know what my commercial value would be for "delivery Aug. 18," but will trust this as "free will offering" to your "board of trade." I presume, as an old central county, Macon has a history by townships of the first settler is ash, first school taught, first sermon preached, first society organized, first church and first mill built, etc., etc. These may seem small mathers to us, but their importance will have greatly moreased E9 or 160 years hence. Hoping you may have fine weather and a pleasant profit-table time, I remain, respectfully and truly rours.

Besides the address by Hev. Rutledge who is one of the few surviving piones: Methodist preachers of Illinois, there will be other talks by good speakers. The ladies will be expected to rise and give ecollections at the meeting.

Orop Conditions. The weather conditions have affected

be corn crop very favorably; it is reported making a rapid growth, is gener ally in good condition, and in some sec tions tessebng out. In the centra counties, the high wind and heavy rain of the 20th inst. did considerable damage to the growing crops, and to wheat and hay in stack, many fields of corn and onts were badly lodged, and in some sections much of the corp was broken off near the ground. Rain would greatly benefit the corn, especially in the southera counties. Wheat is now being harvested in many

of the northern counties, while in the outhern and central portions of the state threshing is progressing. Scott county reports an average yield of about fifteen bushels to the scre; Logan, from fifteen to twenty; Vermilion, about eighteen and Sangamon, about twenty. Rye harvesting is still in progress, and the reports indicate that the yield will be light.

In the central and conthern counties hay is about all cut, and the yield is reported good, both as to quantity and quality. In the northern counties the crop will be mostly out during the pres ent week.

The harvesting of cats is general the northern and central, and about completed in the southern counties, when he yield is reported good.

There is no improvement in the out ook for fruit; McHenry county reports that the upples are dropping from the trees, and that the crop will be a failure.

Daniel Moore, jr., member of the De atur Guarde and Col. I. C. Pugh Camp, ons of Veterans, was seriously prostrated by the heat last evening and arrived me on a late train considerably exhausted. vicinity that cattle are suffering badly from the effects of the flies during the hot weather. A small blue fly, which is unnaually abundant, gets on them, digs into their skin and pesters thom until they are almost frantic. People who are feeding cattle find them falling off in flesh in spite of the fact that pasturage is plenty, and for this season more than usually nutritious. The effect on milch milk supply is reported to be diminishing equence. One farmer states that the flies even pursue the cattle at night so that the poor animals get no rest. It is to be expected that this peat will be present the remainder of the season since the flies can subsist as long as th cattle last, and nothing but the sharp frosts of the autumn can put an end to

#### Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROCK PLASTER, and while it will remove a not inconsiderable amount of business, namely, that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the husiness of the placement of the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.
